Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Takamatsu (4,036,524). Takamatsu discloses the use of a seat (10) including a seat portion (11) and an attached seat back portion (12); a top (19), having a lower end, fitted over the seat back portion and a uniform bottom (17), having a rearward end, fitted over the seat portion; an engagement assembly (21) carried by one of the lower end of the uniform top and the rearward end of the uniform bottom; a complementary engagement assembly (21e, 21c) carried the other of the lower end of the uniform top and the rearward end of the uniform bottom; and the engagement assembly detachably engaged to the complementary engagement assembly detachably engaging the lower end of the uniform top to the rearward end of the uniform bottom.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3636

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takamatsu in view of Vinson (4,296,498). Takamatsu shows the use of all the claimed invention but fails to show the use of the uniform top and bottom support uniform adornment that identifies a member of an organization, a neck opening, and arm openings. Vinson teaches the use of the uniform top and bottom support uniform adornment that identifies a member of an organization, a neck opening, and arm openings. It would have been obvious to one of ordinary skill in the art at the time of invention to modify the uniform top and bottom with adornment as taught by Vinson, in order to put the top on the occupant, show support of the organization, and to identify what team or organization the occupant is on.

Response to Arguments

Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.
